Professional Floor Maintenance & Hand Pads

KLENCO's new range of floor and hand pads are made of the highest quality materials for superior cleaning performance and greater durability. From stripping, scrubbing and buffing tiled floors, to surface cleaning carpets, to crystallizing stone floors, to scouring counter tops, we have the pad you want.

WHY ACCEPT ANYTHING LESS?

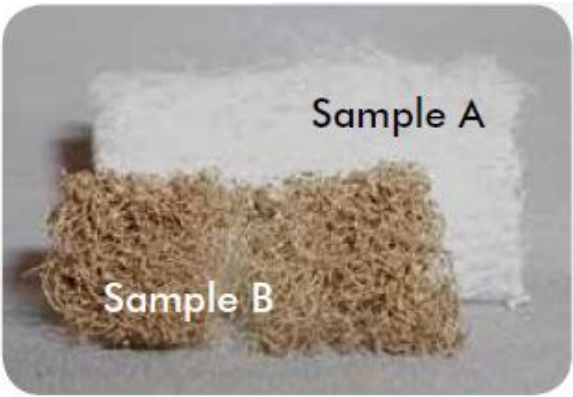

- ✓ Made from 100% recycled PET plastic.
- ✓ Specially formulated to biodegrade in a fraction of the time that it takes conventional floor pads once discarded into an active landfill.
- ✓ Leaves no toxins or toxic remnants in the environment.
- ✓ Methane, a by-product that occurs during the biodegradation process, can be captured and converted into energy where facilities exist.

KLENCO (SINGAPORE) PTE LTD

18 Gul Crescent, Singapore 629527 • Tel: (65) 6862 3388 • Fax: (65) 6861 7575 • info@klenco-asia.com • www.klenco-asia.com
Company Registration No: 197100402R

KLENCO products are used in over 20 countries across Asia, the Middle East, Europe and Africa

All of Klenco's new range of floor and hand pads are designed to last longer, do the job faster, prolong the life of floor coatings and protect your machinery. It is the perfect cleaning pads to use with auto scrubbers and burnishers. Strips, scrubs, polishes and cleans dirt and scuff marks, including black heel marks on the floor. Resilient, open construction allows the pads to produce the ultimate performance when used with machines.

Samples A and B shown above were both taken from the same Full Cycle™ floor pad. While Sample A was left untouched, Sample B was placed in an ASTM D5511 simulated landfill test for 290 days.

Note the significant mass reduction via enhanced biodegradation in Sample B. *Photos courtesy of Eden Labs LLC.*

FLOOR PADS

Description
Black Stripping pads are designed specifically for the heaviest duty stripping tasks made with extra heavy denier fibre, more abrasive grit, yet supple enough to reach dips on uneven floor surfaces.
