Cold Water Electric High Pressure Cleaner

● Features

- Power rating 2900W, 230V/50Hz/1~
- 4-pole slow running & low wearing 1450 rpm motor with thermal overload switch, for longer operating life
- Automatic total stop upon trigger release
- Heavy duty strengthened pump with brass pump head with ceramic coated pistons for corrosion and abrasion resistance
- Delivers 600 (660 max.) lt/hr water flowrate at 130 (150 max) bar pressure
- Pressure regulator and glycerine pressure gauge
- Steel electrophoresis treated chassis with large wheels for easy movement

● Standard accessories

- 8m high pressure hose
- Trigger gun with quick rotating coupling
- Spray lance with quick nozzle connection
- Set of 4 high pressure colour coded nozzles (for 0, 15, 25 & 40 degrees spray angle)
- Low pressure chemical spray nozzle
- Turbo-jet nozzle
- Garden hose connector

● Optional accessories

- Integrated hose reel

● Specifications

● Pressure (max.)	bar	130 (150)
● Flowrate (max.)	ltr/hr	600 (660)
● Power load	W	2900
● Power supply rating	V / Hz / ~	230 / 50 / 1~
● Motor speed	poles / rpm	4 / 1450
● Detergent tank	ltr	7.5
● Max. inlet temperature	°C	40
● Dimensions (l x b x h)	cm	59 x 37 x 87
● Weight (nett)	kg	28
● Cable length	m	5

New strengthened pump for durability; with ceramic coated pistons and brass pump head for improved abrasion and corrosion resistance.

Optional hose reel
